Creating powerful yet accessible mediums to communicate to multiple generations, multiple ethnicities, and to illuminate alternatives for an urban audience disenfranchised by the commodification of mainstream media and entertainment.

**Hidden Entropy Movement Project, company member; director: Rochelle
Guardado Lancaster, Ca. 2014-Present**

Hidden Entropy Movement Project is a dance company that performs in many settings throughout Southern California. With a passion to share work that opens up imaginative spaces and teases through the web of human consciousness, the company aims to present works created from coalescence between science and dance. Often using theoretical physics as inspiration, we look for entry points into movement, imagination and the study of the self. There we explore, borrow, get lost, and emerge in pursuit of finding meaning (and meaninglessness), and share our journey.

**Antelope Valley Ballet, principal company member; director: Kathleen Burnett
Lancaster, Ca. - 2012-Present**

<http://www.antelopevalleyballet.org>

Founded 1998, AV Ballet is the only dance company residing in the Antelope Valley. We have brought dance to over 38,000 audience members with special performances designed for students, senior citizens and the disabled. Over the past 14 years we have brought in over 24 guest artists, master teachers, and guest choreographers from New York City Ballet, Boston Ballet, Houston Ballet, Complexions Contemporary Dance, Oklahoma Festival Ballet, and Cincinnati Ballet.
